

Carol Cordy, MD  
2467 26th Ave E

My husband and I have lived in Montlake for 37 years and raised our three children here. Two attended the wonderful Montlake School where we helped with parking for football games and other school fundraising projects. Both my husband and I are still working well into our 70's but I have cut back to part time doctoring and I am looking into getting more involved in helping out where I can in the great neighborhood that has been our home for so many years. I am able to help where needed.
